Laporan Modul ke 7

7.2 Latihan

1. Menampilkan private variable dengan 5 Object

- Main() + output

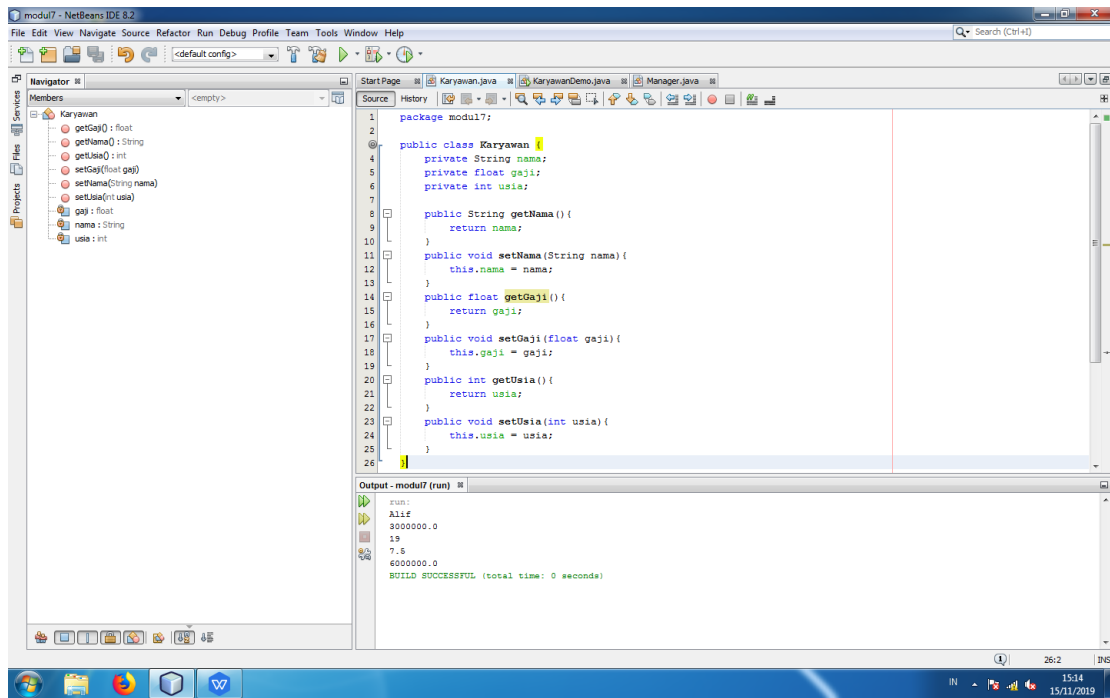

```
1 package modul7;
2
3 public class KaryawanDemo {
4     public static void main(String[] args) {
5         Manager m1 = new Manager();
6         m1.setName("Alif");
7         System.out.println(m1.getName());
8
9         Manager m2 = new Manager();
10        m2.setGaji(3000000);
11        System.out.println(m2.getGaji());
12
13        Manager m3 = new Manager();
14        m3.setUsia(19);
15        System.out.println(m3.getUsia());
16
17        Manager m4 = new Manager();
18        System.out.println(m4.jamKerja());
19
20        Manager m5 = new Manager();
21        m5.setGaji(3000000);
22        m5.getGaji();
23        System.out.println(m5.getGajiManager());
24    }
25 }
26
```

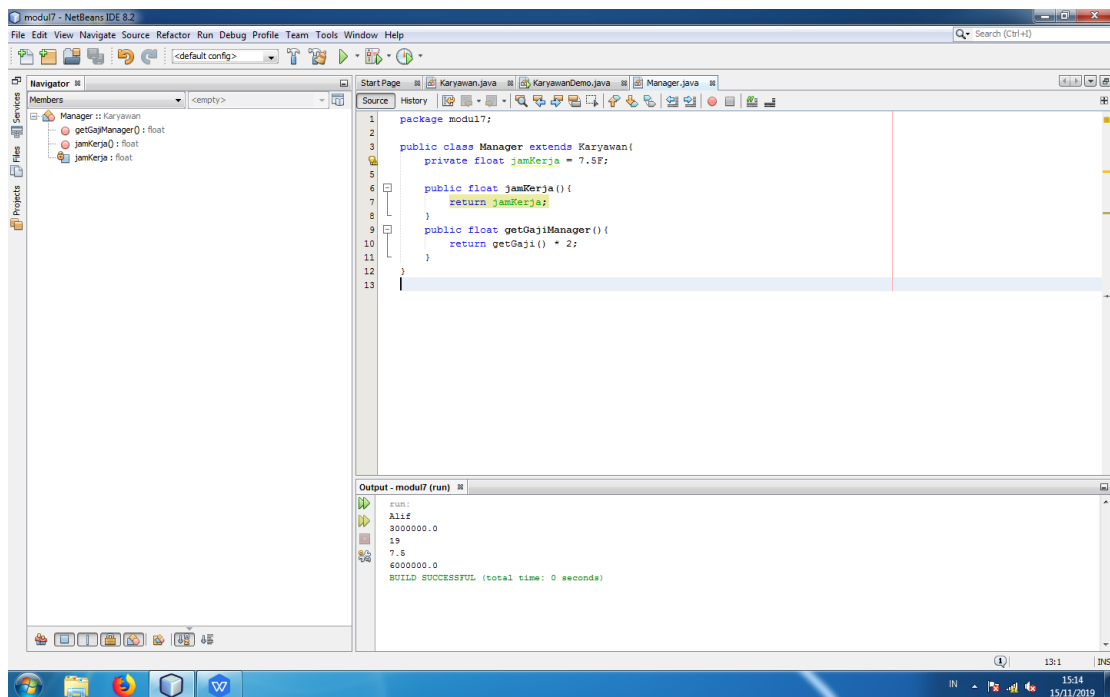

Output - modul7 (run)

```
run:
Alif
3000000.0
19
7.5
6000000.0
BUILD SUCCESSFUL (total time: 0 seconds)
```

- class Karyawan

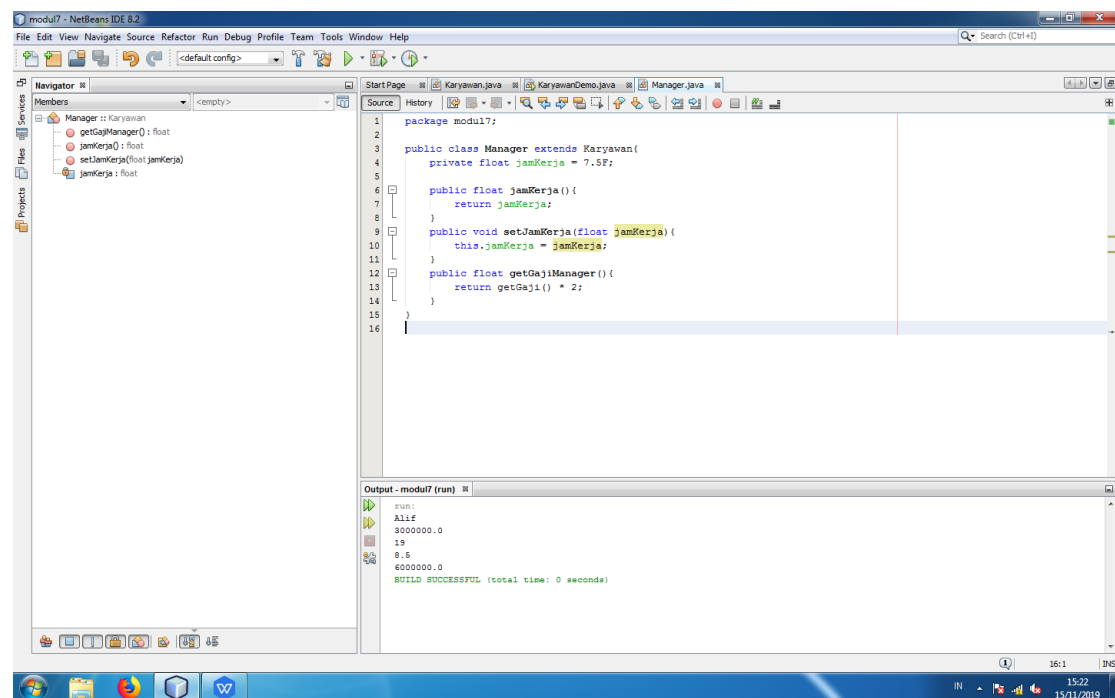

- class Manager

2. Menambahkan setter pada class Manager untuk memodifikasi nilai baru jamKerja menjadi 8.5

- class manager setelah ditambah setter

- main() setelah memodifikasi nilai jamKerja menjadi 8.5 + output
